

RURAL ROADSIDE MIX (LNK 'F')

This is a mixture of warm-season and cool-season grasses that will withstand some of the toughest growing conditions. Oats provide quick cover and erosion control very quickly, while the rest of the mix germinates. Once established this mix works well in sunny, un-irrigated, low maintenance areas that need erosion control. This mix matches specifications for City of Lincoln Type F Seed Mix and Lancaster County Standard Mix.

Scientific name	Common Name	PLS LBS/Acre
Avena Sativa	Oats	20
Bromus Inermis	Smooth Bromegrass	10
Vicia Villosa	Hairy Vetch	2.25

COMPONENTS

- Oats
- Bromegrass
- Hairy Vetch
- Red Clover
- Switchgrass

FEATURES

- Excellent heat resistance
- Wide area of adaptation
- Ideal for sun and shade
- Excellent wear tolerance
- Fast Establishment
- Self-repairing rhizomes
- Dense growth
- Erosion Control

USES

- Ditches and slopes stabilization
- Lagoons
- Parks
- Out-lots
- Utility purpose

SEEDING RATES

- Drilled
36.75 PLS lbs / acre
- Broadcast
73.50 PLS lbs. / acre

SEEDING DATES

- SPRING
March-May
- FALL
August-October
- DORMANT
December-March

MOW HEIGHT

- Max: No mow
- Min: 5-6 inches with 8 week intervals
